

*Time to Disposition  
Criminal Matters  
Cuyahoga County Common Pleas Court*

Time to Disposition is used in conjunction with Measure 2 Clearance Rates and Measure 4 Age of Active Pending Caseload, is a fundamental management tool that assesses the length of time it takes a court to process cases. It compares a court's performance with local, state, or national guidelines for timely case processing. When the underlying data conform to the State Court Guide to Statistical Reporting, the measure takes into account periods of inactivity beyond the court control (e.g., absconded defendants, cases suspended pending decision on an appeal) and provides a framework for meaningful measurement across all case types.
